HOW TO PURCHASE CIRCUIT ELITE ($CRCTE)

- Please follow the guide below if you do not have MetaMask or Trust Wallet
  - [188a5e_54b87bdc166d4614aa43fc1afab22986.pdf (usrfiles.com)](#)
- Ensure you own Binance Coin (BNB) on the Binance Smart Chain (BSC)
  - Circuit Elite is paired with Binance Coin and is required to purchase

----

- Visit PancakeSwap by clicking or copying https://www.pancakeswap.finance
- Click "Connect Wallet" in the top right corner of Pancakeswap's home page
  - Select the type of wallet you have from the available options
    - If you have multiple wallets, select the desired one to connect it
- Once the wallet is selected and your address populates in the top right corner
  - Click "Trade" in the top left corner
  - Click "Exchange" below the word "Trade"
- Click the Cogwheel at the top of the trading screen to access the settings
  - Change the slippage tolerance to 12% for ease in trade execution
  - Click the "X" to go back to the trading screen
- Ensure that "BNB" is selected as the top cryptocurrency within the trading screen
- Click the words "Select a currency" in the lower half of the trading screen
  - Click the words "Manage Tokens"
  - Click the word "Tokens"
  - Paste the contract address "0x59A8aA5030599a17d31e88ec9463014d9E182230"
- Please note: if nothing populates, please refresh the page and retry entering
  - Click "Import" beside where "CRCTE Circuit Elite" populates
  - Click the box beside "I understand"
  - Click "Import"
- Now that BNB is the top cryptocurrency and CRCTE is the bottom cryptocurrency
  - Type the amount of BNB you would like to use for the purchase of CRCTE
  - Allow 5-20 seconds for the amount of CRCTE to populate at the bottom
  - Click "Swap" if you are satisfied with the amount of CRCTE
  - Click "Confirm Swap" if you would like to proceed
  - Once your wallet pops up on the screen
    - Click "Confirm" to accept the transaction fee
- The purchase has been completed! Congratulations on your purchase!
